SANGEAN

***SINCE 1974***

# A WORLD OF LISTENING

In 1936, our founder developed his very first radio with the dream of connecting with the world through music and sound.

38 years later, SANGEAN was established in 1974 with the hope to share that same dream to the world. Today, that dream has come true and continues to be the driving force of SANGEAN for generations to come.

# TESTIMONIALS

★★★★★

I love this radio. Everything talks, and is very intuitive. The sound quality exceeded my expectations!

- RT. on PR-D17

★★★★★

I bought this radio to replace my Sony waterproof shower radio, which I loved. This is a great radio also -- very solidly built, very waterproof, reception is nearly always good, and I just found out from another review that the curved handle is an antenna also, in addition to the antenna wire, so now I will put that up too when listening in the morning as I get ready for work. The sound is very good quality .....

-MH. on H201

★★★★★

An excellent little radio, the sound quality is amazing and reception is very good. It has plenty of features including RDS providing song and time information. The product feels very sturdy and not at all cheap, in fact it is very heavy for it's size which tells me that there's a good speaker inside. Overall a great product.

- J. on HDR-18

★★★★★

Amazing how much quality sounds comes out of this little radio. Bluetooth works great. Cool retro look. Perfect for my bedside table.

- NB. on CP-100

★★★★★

The Sangean ATS-909x is a truly superior radio for Broadcast band AM/FM, AND for broadband Shortwave, including Ham bands. THIS IS A GREAT RADIO FOR NEWBIE AND EXPERIENCED ALIKE! TAKE THAT TO THE BANK! TEN STARS!

- A. on ATS-909X

★★★★★

I just received this. At first sight I loved the look. It was not too hard to set up. It took a few times but I know how to set alarm etc. It looks awesome on my nightstand. The sound for AM radio is perfect.

- LB. on RCR-9

★★★★★

I have so many great things to say about this radio, so I've tried to organize this review because I could go on forever. Exceptional. I would recommend it to strangers, not to my family or friends \*because\* I love showing it off so much.

- G. on WR-11

★★★★★

This is the best job site radio I've ever owned. As far as being a radio, it far surpasses the DeWalt, Bosch, Milwaukee, or the Rigid all of which I've owned or used. Some of the others have features like a 115V outlet, etc. that this does not, but I bought it to use as a radio, not an extension cord or a charging station

- ZS. on U4

Amazon's Choice

# CORPORATE SOCIAL RESPONSIBILITY (CSR)

- Reduction of non-recyclable materials on packaging.
- Increase of warranties on products and availability for fixing older models.
- LEED Gold Certified new headquarter building to provide a comfortable working place for our employees and to transform the company's image.
- New building set close to an MRT station to eliminate the need for employees to drive to work and reduces their carbon footprint.
- SANGEAN cares about our employees' health, where top-of-the-line air purifiers are placed in each room.
- FSC Certification for our packaging.
