

TRAVELLER 670 DPR-67

DAB+ / FM-RDS
Digital Receiver

The Traveller 670 is an excellent companion for portable fun. Add music to your visit to the park, a picnic or fun in the garden with this compact FM/DAB+ speaker radio. Because of the easy-to-read LCD display with backlight function, you do not have to worry about problems in the evening. Ten station presets are available with five presets each for FM and DAB+, and the Auto Seek function will automatically seek the active stations across the entire band, rather than to the next frequency.

Another great feature is the headphone jack, which turns off the external speaker when headphones are plugged in, so you can enjoy your listening experience without disturbing those around you. Great for nighttime listening, tuning into sports information, or for music in your tent on a camping trip.

- 10 station presets (5 DAB+, 5 FM)
